The Custodian Weekly Allowance has been a controversial topic since week one of the Alien World DAOs. Often these debates were fought quite emotionally. This article has the intention to help in bringing the discussion somewhat back to facts, back to data.

All amounts paid out as CWA up until the election on Feb. 21st 2024 were counted. “CWA” in this context was understood by the general “spirit” of the proposal and not by name, so the likes named “Council”, “Councilor honorarium”, “Rewarding Previous Efforts” etc. are also included.

All amounts are totaled and listed as 1000 TLM. So “100k” means 100,000 TLM paid as CWA by that planet / to that player.

Total CWA per planet

Neri 5,666k

Magor 4,085k
